

## **LiDAR Managers and Technicians**

*QASCO are leaders in the spatial science industry offering a range of mapping and surveying products and services to meet client's needs. Originally formed in 1962 in Brisbane, Australia, QASCO also has offices in Sydney, Melbourne, Darwin and Yass and provide services throughout Australia, South East Asia and the Pacific Islands.*

*Being proudly Australian owned and operated, the company's operations cover aerial photography and airborne laser scanning (LiDAR), photogrammetry, land surveying, digital imagery, computing and cartography related services. Our company has recently received national and State awards for excellence in the spatial science industry.*

*Recent company growth and the expansion of our technological capabilities have created opportunities for experienced LiDAR Analysts and Project Managers to join our team. Previous experience working on LiDAR data acquisition projects is essential. Positions will be initially based in Brisbane with potential to expand to other Qasco offices.*

*In addition to strong technical skills successful applicants will be team players with drive, integrity and a desire to succeed. We offer a challenging role in a supportive environment that will provide you with a range of training and development opportunities to further your skills and experience.*

*This is an ideal opportunity to join a well respected industry leader at an exciting time in the growth of the company. For more information and to discuss the opportunities on offer please send applications to:*
